Video layout
1. Explain what our program does
2. Start by showing our working website and giving an example of creating a meme using a picture from our computer and uploading it to Reddit.
3. Show another example of creating a meme by querying from the database.
4. Go over who did what
5. Go over how we implemented the scrum process
6. Each individually talk about:
    a. What we did
    b. Problems we faced
    c. Solutions
    d. Things we want to change
    e. Things we would have done differently
7. Why we did things the way that we did
8. Conclusion
